Upcoming events for IT professionals

ITWeb Business Process Automation Summit 2018
22 NOVEMBER 2018, **THE FORUM, BRYANSTON**

Automation is a natural progression for all industries as it increases business speed and scope. This event will deal with the concern people have that automation not only means that jobs will be taken by machines but also that jobs will change in all aspects of the economy. It will try to illustrate that automation will free employees from many of the manual, error-prone tasks that they dislike so much and allow them to focus on the things that matter. Organisations that do not automate their mundane tasks will lose competitive advantage and eventually become redundant.

ITWeb Cloud Summit 2019
12 FEBRUARY 2019, **THE FORUM, BRYANSTON**

ITWeb's Annual Cloud Summit has become home to over 200 senior business decision makers, buyers and executives who come to source cloud solutions and services from across the IT landscape. The summit attracts a network of prospective customers spanning the breadth of the cloud computing business chain, from enterprise and the public sector to cloud service providers and the wider cloud industry. Anyone looking for cloud solutions they need to transform, maintain and grow their businesses attends. ITWeb Cloud Summit 2019 focuses on the evolution of cloud, highlighting the survival of the fittest – the business practices, consistently achieving success through adopting cloud practices – and the specific obstacles and dead ends, with a particular emphasis on the South African challenges and opportunities.

ITWeb Governance, Risk and Compliance 2019
21 FEBRUARY 2019, **THE FORUM, BRYANSTON**

At ITWeb's 9th annual Governance, Risk and Compliance event, business and IT leaders will learn how to manage risks across the enterprise in an increasingly complex and intrusive environment. There is a great need in the market for more comprehensive, consolidated and actionable governance, risk and compliance (GRC) information, software and products. Risk management is a financial and operational burden. Governance is complex and intrusive. Compliance is demanding and process-driven. At this event we seek to solve these challenges, to provide organisations with valuable tools designed to support their GRC commitments, set best practice standards and transform how they face GRC as a whole. ITWeb Governance, Risk & Compliance 2019 is geared towards a valuable learning experience, with high-level talks, practical case studies, interactive discussions and opportunities for high-level networking. The event covers pressing GRC topics as well as the latest legal developments.

Upcoming events for IT professionals

ITWeb BI & Analytics Summit 2019
12-13 MARCH 2019 (CONFERENCE & SPONSOR DISPLAYS)
14 MARCH 2019 (WORKSHOPS), **THE FORUM, BRYANSTON**

BI and Analytics is a fast-moving environment and can mean different things to different people. From data management and data analytics to artificial intelligence and machine learning to visualisation, today's businesses require a thorough understanding of the entire business intelligence landscape if they are to successfully translate their data into actionable insights. ITWeb's annual BI & Analytics Summit 2019 will once again provide a platform for BI decision makers and data specialists from across industry to meet, share knowledge and hear about the latest technologies, solutions and trends. The focus for the event is on the practical application of BI and analytics into the business and will feature local and international case studies, real success stories and lessons learnt, interactive panel discussions and practical workshops. This is THE annual BI and analytics event on the South African calendar.

ITWeb Security Summit 2019
21 MAY 2019 (WORKSHOPS)
22 MAY 2019 (CONFERENCE & EXHIBITION)
23 MAY 2019 (TRAINING) **SOUTHERN SUN CAPE SUN, CAPE TOWN**

27 MAY 2019 (WORKSHOPS)
28-29 MAY 2019 (CONFERENCE & EXHIBITION)
30 MAY 2019 (TRAINING) **SANDTON CONVENTION CENTRE**

ITWeb's Security Summit is THE South African business event of choice in the information security industry and is a high-profile conference and business exhibition that equips delegates with tools to tackle today's mission-critical security objectives – no matter how rampant the user ignorance or non-compliance that runs throughout their organisations. In a rapidly evolving threat landscape, it has never been more vital to remain aware of the state-of-the-art in best practice and technologies available to security practitioners, the methods and tools in use by attackers and the emerging legal and compliance demands. ITWeb's Security Summit 2019 will once again draw on the insights of industry experts, analysts and end users to deliver an agenda aligned with the specific threats and opportunities facing African CISOs, security specialists, risk officers and CIOs. Top international, African and local speakers will again ensure that this Summit – the 14th annual information security event from ITWeb – continues to build on its legacy as the 'must-attend' gathering for every IT, security and business decision-maker who is serious about promoting excellence in information security to the benefit of his / her company and the information security community as a whole.
