T-SYSTEMS HEALTHCARE PROFILE

T·· Systems· Let's power higher performance

T-Systems provides intelligent solutions for connected healthcare
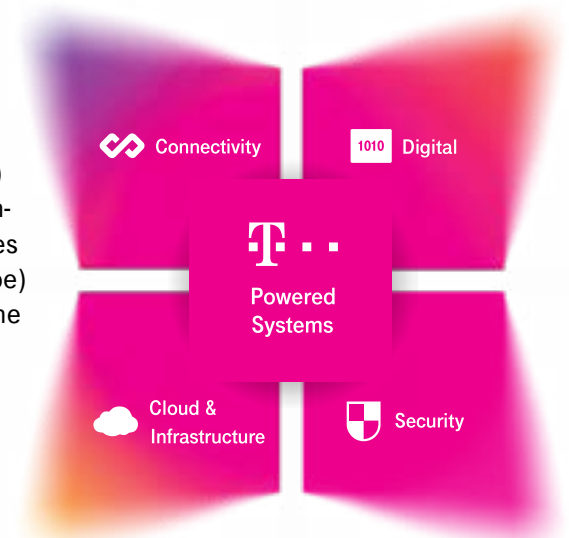

Since 2010 T-Systems South Africa has deployed innovative end-to-end solutions that manage every aspect of healthcare business whilst meeting local and international regulations, standards and best practice.

T-System Healthcare Digital Solutions Footprint is complemented with Connectivity, Cloud & Infrastructure and Security Solutions & Services.

About T-Systems

With a footprint in more than 20 countries, 37,500 employees, and external revenue of 6.8 billion euros (2019), T-Systems International (TSI) is one of the world's leading vendor independent providers of digital services headquartered in Germany (Europe) and is part of the ICT giant Deutsche Telekom.

T-Systems South Africa (TSSA) has a proud 25-year history in South Africa having first invested in the country in 1997. As a Level 1 B-BBEE Contributor, our competitive advantage is through delivering world class services and standards while adapting to the unique needs, priorities and expectations of our clients and partners in South Africa.

Connectivity   1010 Digital

T··
Powered Systems

Cloud & Infrastructure   Security

As a leading provider T-Systems unites healthcare and ICT competences that enable all healthcare players to be connected with each other securely and digitally.

Whatever can be digitized will be digitized, and whatever can be connected will be connected.
